Career Objective

Dedicated and adaptable **Java Full Stack Developer (Fresher)** with strong knowledge of **Java, SQL, Spring Boot**, and **web technologies (HTML, CSS, JavaScript Basics)**. Seeking an opportunity to apply my technical skills, learn emerging technologies, and contribute effectively to team-oriented projects.

Education

Bachelor of Technology (B.Tech) in Electronics and Communication Engineering (ECE) Dayananda Sagar University (DSU) Bangalore, Karnataka Year of Completion: 2025	Aug 2022 – May 2025
Intermediate (Diploma) in (CE) - Government polytechnic Aurad Aurad B , Karnataka Year of Completion: 2022	Jun 2019 – Apr 2022
Secondary School (10th Standard) - Ram and Raj High School Humnabad, Karnataka Year of Completion: 2019	Mar 2018 – Apr 2019

Skills

- **Core Java:** Good understanding of OOP concepts, exception handling, and collection frameworks
- **Backend Development:** Hands-on designing and developing RESTful APIs using Spring Boot, Spring Core, Spring MVC, Spring Data JPA, and Hibernate
- **Database and Connectivity:** SQL (SQL*Plus, PostgreSQL)
- **Web Technologies:** HTML, CSS, JavaScript Basics
- **Development Tools:** Eclipse, VS Code, Postman(API Teasting)

Projects

Live Weather Dashboard • Developed a web-based application to display real-time weather information for multiple cities using API integration. • Designed and implemented a user-friendly interface using HTML, CSS, and JavaScript for seamless interaction. • Fetched and displayed live data such as temperature, humidity, and wind speed with dynamic updates.	GitHub	Jul 2025 – Sep 2025
Food Order Management System • Built a full-stack food ordering system using Spring Boot, JPA/Hibernate, PostgreSQL and Postman(API Teasting) . • Implemented business logic for order processing, price calculation, payment validation, and order status management. • Designed entity relationships and developed RESTful APIs for CRUD operations with validation and error handling.		Nov 2025 – Jan 2026
Flight Booking System • Built a full-stack flight booking system using Spring Boot, JPA/Hibernate , and PostgreSQL . • Implemented secure authentication, booking workflows, and RESTful backend services. • Designed APIs for flight search, booking management, and user operations with proper validation.		Jan 2025 – Mar 2026

Certifications

Java Full-stack [Jspider] Link	July 21,2026
Basic of Electronics Programming [Infosys] Link	Aug 5,2024
Developing A System For Acquiring Data From Diverse Sensor And Transmit Over RF Link For MAV Application Link	Feb 2025 – Apr 2025
